Objective

To secure a challenging position that utilizes my skills and experience, allowing me to grow professionally and contribute to the organization's success

Experience

- **MICTSETA** 2 March 2026 - 31 July 2026
Software Developer
 - Contributed to software development projects as part of Work Integrated Learning program
 - Collaborated with development team to design, code, and test software applications
 - Assisted with debugging, troubleshooting, and documentation of systems
 - Gained practical experience in the full software development lifecycle
 - Applied Computer Science principles to solve real-world technical problems

Education

- **Tshwane University of Technology** 2022 - currently
Diploma in computer science
- **Dipone secondary school** 2021-2021
Grade 12

Skills

- HTML
- Css
- Javascript
- Spring-boot
- Node.js
- React
- MySQL
- Teamwork
- Java
- Web development
- Microsoft suites(word, excel, PowerPoint)

Projects

- **Hackethon**
Participated in a 3 days and 2 nights hackerthon where I was collaborated with 10 members to develop a EcoGuide . Our project EcoGuide was to develop an intelligent waste sorting system that accurately identifies objects and guides users on proper disposal methods , reducing waste mismanagement and promoting environmental sustainability
- **NEMISA digital literacy**
An online skill course that refers to the ability to use digital tools and information and communication technologies (ICTs) to perform tasks, communicate, solve problems, manage information, and build knowledge, all relevant to everyday life and work
- **Grade12 App**
A web application that helps Grade 12 learners study for exams by providing past papers, quizzes, tutor support, and progress tracking.
- **QuickBird**
A delivery application designed to manage same-day and overnight parcel deliveries. The system connects drivers (bakkies and bikes) with delivery requests, supports route planning, and handles parcel collection and distribution within a set radius. It helps optimize deliveries, reduce fuel costs, and improve efficiency for both

local and intercity logistics.
